Operation New Hope provides support, life and job skills training for people affected by the criminal justice system and place them in employment that offers a sustainable quality of life. Breaking the Cycle initiative is to make the reunification of family possible and to provide financial and emotional stability for the children of the ex-offenders. Ready4Work is a nationally recognized program assisting ex-offenders with reentry into the community and workforce, effectively leading participants toward a productive life. Working in collaboration with the Department of Corrections, Operation New Hope delivers pre-release services to 19 facilities in Florida. Our dedicated Ready4Release team targets qualified inmates and presents Ready4Work program details. Experienced Case Managers enroll interested clients and build an individualized release plan to facilitate a smooth transition back into the community. By meeting with clients monthly during the 90 days prior to their release, we bridge the reentry divide to ensure adequate housing, transportation, and job training. The success of the program is evident in the transformation stories of our clients, enhanced hiring practices for employment partners, healthier communities and families, reduced recidivism, and better public safety.
